About Us

WHAT IS TURJOMAN?

Turjoman is the world's fastest, lowest cost, cloud-based, collaborative business translation platform.

HOW DOES TURJOMAN WORK?

Turjoman combines the efforts of talented human translators through the use of a cloud based translation platform. Our translators are able to login simultaneously into projects that fit their language combination and provide translation service collaboratively - while also seeing the whole content for contextual purposes. This ability to simultaneously utilize multiple translators makes Turjoman exceptionally fast and highly accurate.

WHAT IS UNIQUE ABOUT TURJOMAN?

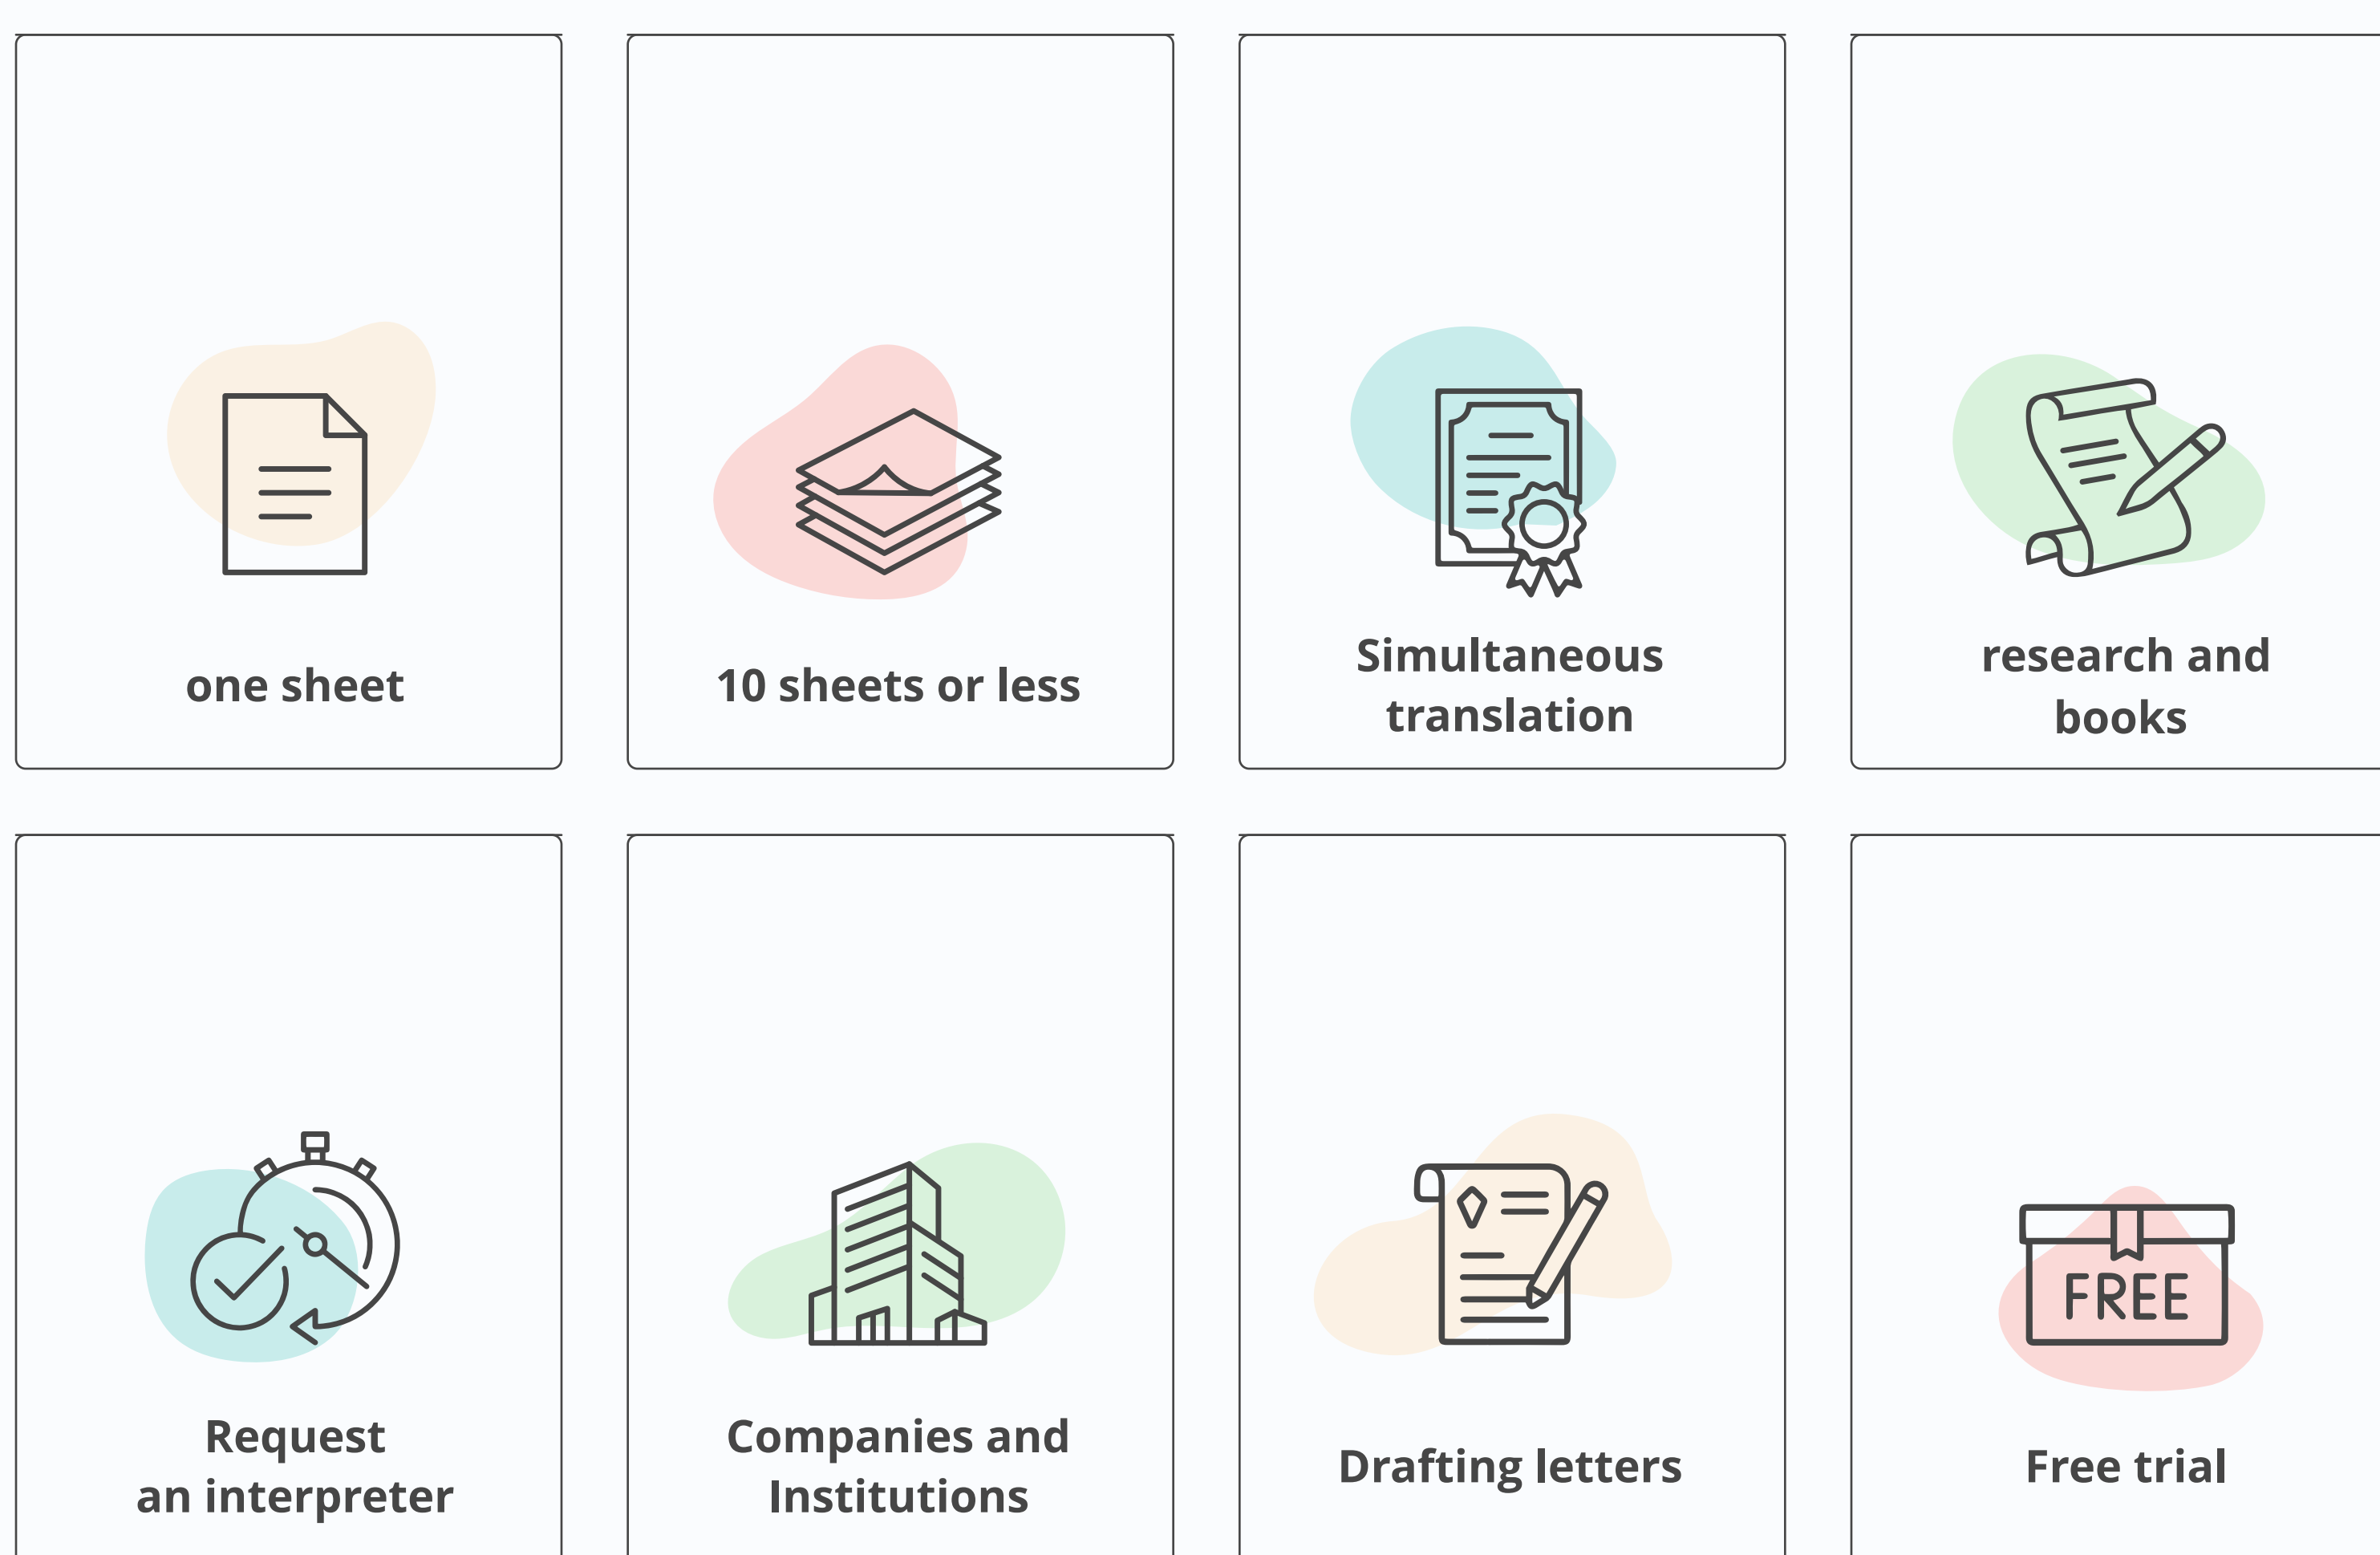

A new and powerful approach known as collaborative translation: multiple translators with varying tasks collaborate simultaneously through a shared workspace and resources via cloud computing. Collaborative translation reduces the total time of the translation lifecycle, improves communications (particularly between translator and non-translator participants), and eliminates many management tasks.

WHO IS BEHIND TURJOMAN?

A leading translation agency with 17 years of experience, expert developers and passionate designers brought Turjoman to life. Turjoman is a simple, seamless and reliable source for translation service. Our aim is to delight our clients, who order, inspect, and access high-quality and budget friendly human translation services worldwide using the collaboration of multiple expert translators.

Turjoman is designed and developed at our corporate office, located in Kingdom of Saudi Arabia.

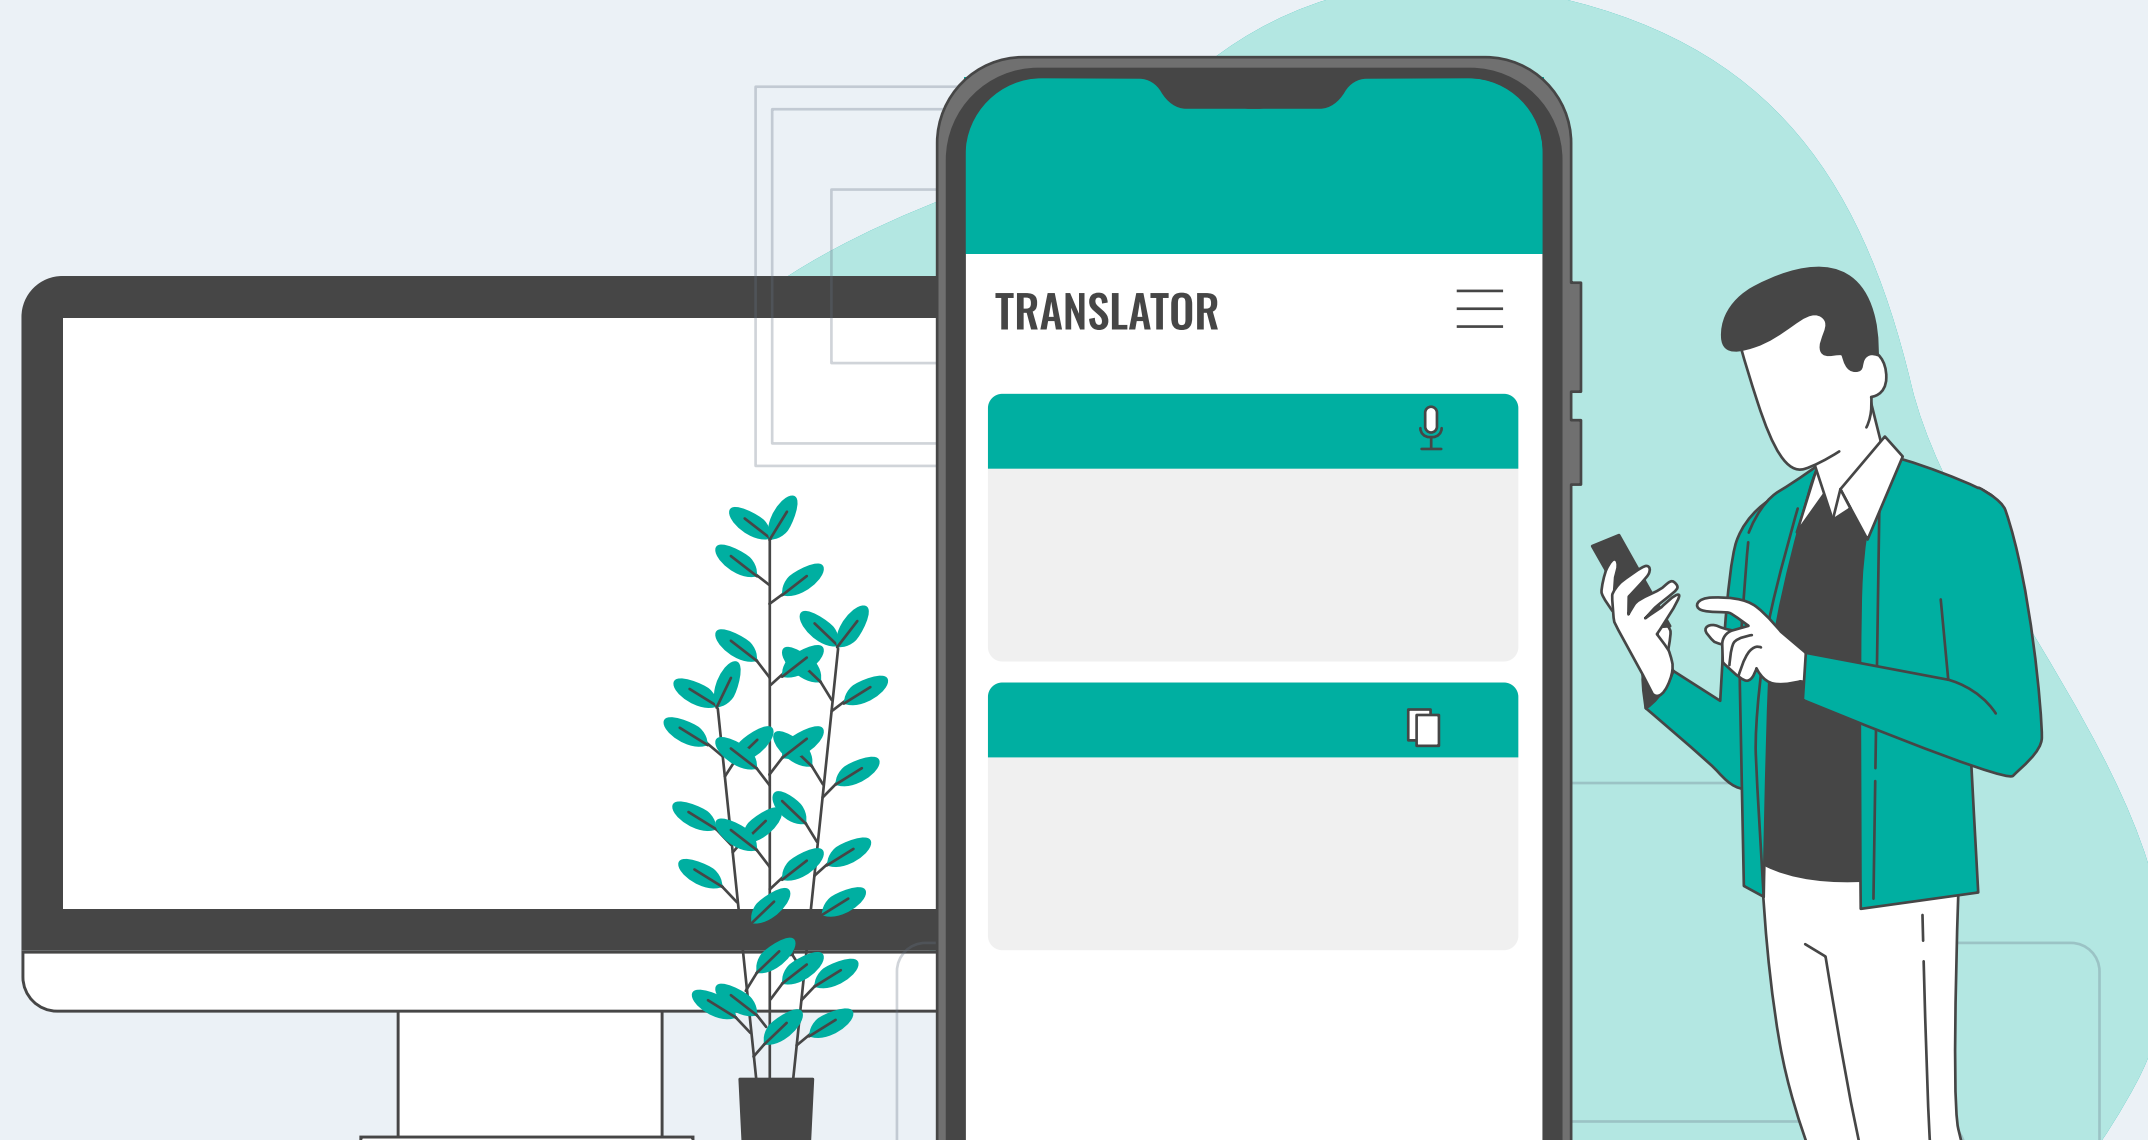

Services

Features

At Turjoman we are hard at work in building the world's fastest, professional translation platform. In doing so we use, invent, and better technologies. You may browse through all our features and how we make Turjoman the best translation solution in the market.
